

## Welcome to Seneca Rehabilitation Hospital

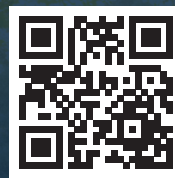

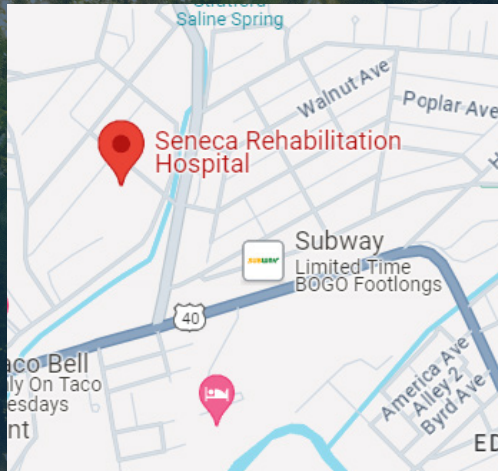

Situated in the Ohio Valley in northern West Virginia, Seneca is your destination for personalized and comprehensive acute rehabilitation services designed to help patients reach optimal wellness and get back to a life they love. A CARF-accredited facility, we offer inpatient and outpatient programs, promoting increased mobility, function, and independence in daily activities. Patients benefit from a collaborative, holistic approach by our experienced multidisciplinary team of therapists, specialists, nurses, and dedicated staff.

We place a heavy emphasis on quality care that treats the physical, emotional, and social needs involved in recovery—making Seneca a true home away from home.

## SENECA REHABILITATION HOSPITAL

### We're here to help you get home

COMMITTED TO HELPING PEOPLE RESTORE AND ENHANCE THEIR QUALITY OF LIFE

## NURSING

Seneca Rehabilitation Hospital admits patients 24-hours per day, offering round-the-clock services to provide a full continuum of care and minimize readmissions. Our dedicated team of licensed, highly experienced nurses coordinates with physicians, medical providers, and therapists to support the healing and rehabilitative process with specialized care to aid recovery and ensure a safe and swift return to daily activities at home. Our staff employs evidence-based practices guidelines from the Association of Rehabilitation Nurses (ARN).

## INPATIENT ACUTE REHAB

The Inpatient Acute Rehabilitation at Seneca blends a rigorous physical, occupational, and speech language therapy schedule with dedicated attention and support from our on-site nursing staff. Our comprehensive services ensure patients receive the highest level of care and support for optimal recovery and a safe return home.

## OUTPATIENT THERAPY

Outpatient services offer flexible support for patients needing a treatment plan that seamlessly integrates recovery into daily life. Patients can live at home throughout their rehabilitation program while still receiving the personalized and elevated care that Seneca provides.
